19. (1) If an elector is incapacitated from blindness or other physical cause from voting in the manner prescribed above, it shall be competent for him to record his vote by the hand of any of the

In every case when new papers are issued, a mark shall be placed against the number of the elector's name in the roll to denote that new papers have been issued in place of those not received, spoilt or lost.

21. No election shall be invalidated by reason that an elector has not received his ballot paper provided that a paper has been issued to him in accordance with these regulations.

Counting of Votes.

22. The Returning Officer shall, as soon as may be practicable after the close of the poll, appoint a date which shall be not later than ten days from the date of the poll, and the time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents.

23. (1) No person shall be allowed to be present at the counting of votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-rule (2) of rule 14.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

24. On the day and at the time appointed under regulation 22 the Returning Officer shall before he commences to count the votes, read the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present, and shall then proceed as follows:—

(*a*) The covers received from or despatched by electors shall be opened one after another and the envelopes and declaration papers taken out therefrom. The Returning Officer shall then examine whether the declaration paper is the one sent out by him and whether the declaration and attestation are *prima facie* regular. If he is not satisfied that a declaration paper is the one sent out by him to the elector concerned or if the declaration or attestation is not in order, he shall endorse the word "rejected" on the back of the declaration paper and keep it with the connected envelope in a separate bundle. He shall tie the other declaration papers and the envelopes containing the corresponding ballot papers in a separate heap. These envelopes shall then be opened, the papers enclosed therein taken out and counted, and the number thereof recorded by the Returning Officer in a statement.

(*b*) The Returning Officer shall then mix together all the ballot papers so counted and totalled up and distribute them in convenient bundles to the persons appointed to assist in counting the votes.

(*c*) When the ballot papers have been so distributed, but not before, the Returning Officer shall allow the candidates and their agents, reasonable opportunity to inspect without handling, the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "rejected." No candidate or agent shall be allowed to see the serial number on the back of any ballot paper.

(*d*) The Returning Officer shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates, or agents as may desire to affix them, and shall cause adequate precautions to be taken for their custody.

25. (1) A ballot paper shall be rejected if—

(*a*) the number of votes recorded thereon exceeds the number of vacancies to be filled,

(*b*) no vote is recorded thereon,

(*c*) it is void for uncertainty,

(*d*) it bears any mark by which the elector can be identified, and

(*e*) the Returning Officer is not satisfied that the declaration paper is the one sent out by him to the elector, or if the declaration or attestation is not in order:

Provided that in a case where more than one vote can be given on the same ballot paper, if one of the marks is so placed as to render it doubtful to which candidate it was intended to apply, the vote concerned but not the whole ballot paper shall be invalid on that account.

(2) Except on the above-mentioned grounds a ballot paper shall not be rejected.

(3) The decision of the Returning Officer as to the validity of a ballot paper shall be final, subject only to reversal on an election petition.

26. Upon the completion of the counting, the Returning Officer shall seal up in separate packets—

(1) the counted ballot papers;
(2) the rejected declaration papers and connected envelopes;
(3) the ballot papers rejected at the count;
(4) the file of declaration papers; and
(5) the marked copy of the electoral roll.

He shall also prepare and sign a statement in Form VI and shall record on each packet a description of its contents and the date of the election to which it refers.

27. The Returning Officer shall then prepare and certify a return in Form VII setting forth—

(1) the names of the candidates for whom valid votes have been given,
(2) the number of valid votes given for each candidate,
(3) the name of the candidate elected,
(4) the number of votes declared invalid;

and shall permit any candidate or any representative duly authorized under sub-rule (5) of rule 14 to take a copy or an extract from such return.

Not less than fifteen clear days before the date fixed for the poll, the Returning Officer shall issue through the post a declaration paper and a ballot paper to each elector to the address entered against his name in the electoral roll, unless the elector has, since the publication of the roll, changed his address and intimated the fact in writing to the Returning Officer.

30. The declaration and ballot paper shall be in Form VIII. It shall be printed in such language as the Local Government may by an order direct. The same serial number shall be entered on the face of the declaration paper and on the back of the ballot paper. 34. (1) Every elector shall have one transferable vote.

(2) An elector in giving his vote—

(a) must place on his ballot paper the figure 1 opposite the name of the candidate for whom he votes;

(b) may in addition place on his ballot paper the figure 2 or the figure 2 and 3 and so on opposite the names of other candidates in the order of his preference.

35. The elector shall then enclose the ballot paper in the envelope and stick it up and enclose the envelope and the declaration paper in the cover and send the cover by registered post to the Returning Officer so as to reach him not later than the day and the latest hour fixed for the poll. The covers received after such day and hour shall be rejected:

Provided that, at his option, the elector may deposit the cover in a ballot box which shall be provided at the office of the Returning Officer on the day and during the hours fixed for the poll.

36. (1) If an elector is incapacitated from blindness or other physical cause, from voting in the manner prescribed above, it shall be competent for him to record his vote by the hand of any of the officers or other persons mentioned hereunder: and such officer or other person shall, on the declaration paper, certify the incapacity and attest the fact of his having been requested by the elector to mark the ballot paper for him, and of its having been so marked by him in the presence of the elector.

37. An elector who has not received his ballot and other connected papers sent by post or whose papers, before their despatch back to the Returning Officer, have been inadvertently spoilt in such manner that they cannot be conveniently used, or who has lost his papers may, on his transmitting to the Returning Officer a declaration to that effect signed by himself, require the Returning Officer to send him new papers in place of those not received, spoilt or lost, and, if the papers have been spoilt, the spoilt papers shall be returned to the Returning Officer who shall cancel them on receipt. In every case when new papers are issued, a mark shall be placed against the number of the elector's name in the roll to denote that new papers have been issued in place of those not received, spoilt or lost.

38. No election shall be invalidated by reason that an elector has not received his ballot paper provided that a ballot paper has been issued to him in accordance with these regulations.

39. The Returning Officer shall, as soon as may be practicable after the close of the poll, appoint a date which shall be not later than ten days from the date of the poll, and the time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents.

40. (1) No person shall be allowed to be present at the counting of votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-rule (3) of rule 14.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

If he is not satisfied that a declaration paper is the one sent out by him to the elector concerned or if the declaration or attestation is not in order, he shall endorse the word "rejected" on the back of the declaration paper and keep it with the connected envelope in a separate bundle. He shall file the other declaration papers and the envelopes containing the corresponding ballot papers in a separate heap. These envelopes shall then be opened, the papers enclosed therein taken out and counted, and the number thereof recorded by the Returning Officer in a statement.

43. The manner of counting shall be as follows:—

The Returning Officer shall arrange the ballot papers (other than invalid papers) in parcels according to the first preferences recorded for each candidate. He shall also ascertain the total number of valid papers.

44. The Returning Officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him.

45. The Returning Officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled, and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota.")

46. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be elected.

47. (1) If the number of votes credited to an elected candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the ballot papers in the parcel of the elected candidate as being next in order of the electors' preferences.

(2) (*a*) If the votes credited to an elected candidate consist of original votes only, the Returning Officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(*b*) If the votes credited to an elected candidate consist of original and transferred votes or of transferred votes only, the Returning Officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers therein in further sub-parcels according to the next preferences recorded thereon.

(*c*) In either case the Returning Officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the Returning Officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the electors' next preference.

(4) (a) If the total number of transferable papers is greater than the surplus the Returning Officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the fractional parts, if any, of each number so ascertained.

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of those fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity and the remaining fractional parts shall be ignored. If two or more fractional parts are of equal magnitude, that fractional part shall be deemed to be the larger which arises from the larger sub-parcel and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(d) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub parcel.

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate for and to whom the transfer is made

(5) (a) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(b) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with, and, if the numbers of the original votes are equal, the Returning Officer shall decide which surplus he will first deal with.

(c) The Returning Officer need not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred is less than the difference between the total of the votes credited to the two continuing candidates lowest on the roll.

46. (1) If at any time no candidate has a surplus (or when under the preceding regulation any existing surplus need not be transferred) and one or more vacancies remain unfilled, the Returning Officer shall exclude from the poll the candidate credited with lowest number of votes and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

The Returning Officer shall make a separate sub-parcel of the non-transferable papers.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the Returning Officer may at one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with lowest original votes shall be excluded and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the Returning Officer shall decide by casting lots which shall be excluded.

47. (1) Whenever any transfer is made under any of the preceding regulations, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in Regulation 47 before any other candidate is excluded

50. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled the continuing candidates shall be elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates together with any surplus not transferred, that candidate shall be elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made.

51. The Returning Officer shall then declare the names of the candidates who have been duly elected and shall prepare a return in form IX.

52. Any candidate or his agent may at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the Returning Officer to re-examine and recount the papers of all or any candidates (not being papers set aside at any previous transfer as finally dealt with) and the Returning Officer shall forthwith re-examine and recount the same accordingly. The Returning Officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count; Provided that nothing herein shall make it obligatory on the Returning Officer to recount the same votes more than once.

53. (a) After the declaration of the result of the voting, the Returning Officer shall seal up in separate packets—

(1) the counted ballot papers ;
(2) the rejected declaration papers and connected envelopes ;
(3) the ballot papers declared invalid ;
(4) the file of declaration papers ; and
(5) the marked copy of the electoral roll.

(b) He shall also prepare and certify a return in Form VI and permit any candidate or his agent to take a copy of this return or of the return in Form IX.

54. The Returning Officer shall, after declaring the result, forward a copy of the return in Forms VII and IX to the Secretary to the Government of India, Legislative Department.

Miscellaneous.

55. All the packets relating to the elections shall, subject to the control of the Local Government, remain in the custody of the Returning Officer.

56. The packets of ballot papers whether counted or rejected and of the declaration papers shall not be opened and their contents shall not be inspected or produced except under the order of a competent Court or of Commissioners appointed to hold an inquiry in respect of an election, but all other documents relating to the election shall be open to inspection subject to such conditions as the Local Government may impose and to the payment of a fee of Rs. 5.

57. The packets aforesaid shall be retained for a period of one year and shall thereafter be destroyed subject to any direction to the contrary made by the Local Government, or by a competent Court or by Commissioners appointed to hold an inquiry in respect of an election.

APPENDIX.

Example of an Election conducted on the system of the single transferable vote.

Let it be assumed that there are five members to be elected, and that there are ten candidates, A, B, C, D, E, F, G, H, I and K.

The ballot papers are examined, and the valid papers are arranged in separate parcels under the names of the candidates marked with the figure 1.

FIRST COUNT.

Each separate parcel is counted, and each candidate is credited with one vote in respect of each paper on which a first preference has been recorded for him.

The result of the count may be supposed to be as follows:—

	Votes.		Votes.		Votes.		Votes.
A ..	2,009	D ..	716	G ..	157	K ..	93
B ..	952	E ..	493	H ..	152		
C ..	939	F ..	341	I ..	118	Total ..	6,000

THE QUOTA.

It is found that the total of all the valid votes is 6,000. This total is divided by six (*i.e.*, the number which exceeds by one the number of vacancies to be filled), and 1,001 (*i.e.*, the quotient 1,000 increased by one) is the 'quota' or the number of votes sufficient to elect a member.

A's votes exceed the quota, and he is declared elected.

First transfer.

A has 1,008 surplus votes (*i.e.*, A's total 2,009, less the quota 1,001), and it is necessary to transfer this surplus [Regulation 47 (1)].

All A's 2,009 papers are examined and arranged in separate sub-parcels, according to the second preferences indicated thereon [Regulation 47 (2) (a)].

A separate sub-parcel is also formed of those papers on which no further available preference, *i.e.*, no further preference for any continuing candidate, is shown, and which are therefore not transferable [Regulation 47 (2) (c)].

The result is found to be as follows:—

A next available preference is shown:—

"	for D on	257	papers.
"	for E on	11	"
"	for F on	28	"
"	for G on	1,708	"
	Total of transferable papers ..	2,004	"
	Total of non-transferable papers ..	5	"
	Total of A's papers ..	2,009	

Since the total number of transferable papers (2,004) exceeds the surplus (1,008), only a portion of each sub-parcel can be transferred, and the number of papers to be transferred from each sub-parcel must bear the same proportion to the total number of papers in the sub-parcel as that which the surplus bears to the total number of transferable papers.

In other words, the number of papers to be transferred from each sub-parcel is ascertained by multiplying the number of papers in the sub-parcel by 1,008 (the surplus), and dividing the result by 2,004 (the total number of transferable papers).

The process is as follows:—

D's sub-parcel contains 257 papers, and his share of the surplus is therefore:—

$$257 \times \frac{1,008}{2,004} \text{ or } 128 \frac{840}{2,004}$$

E's sub-parcel contains 11 papers, and his share of the surplus is therefore:—

$$11 \times \frac{1,008}{2,004} \text{ or } 5 \frac{1,008}{2,004}$$

F's sub-parcel contains 28 papers, and his share of the surplus is therefore:—

$$28 \times \frac{1,008}{2,004} \text{ or } 14 \frac{588}{2,004}$$

G's sub-parcel contains 1,703 papers, and his share of the surplus is therefore:—

$$1,703 \times \frac{1,008}{2,004} \text{ or } 859 \frac{228}{2,004}$$

Total ..	1,008

The numbers of papers to be transferred as determined by the preceding process contain fractions, and, since only whole papers can be transferred, as many of the largest of the fractions, taken in order of their magnitude, as will make the total number of papers to be transferred equal to the surplus are reckoned as of the value of unity.

Thus, as the whole numbers determined above amount to only 1,007, viz., (128 + 5 + 14 + 859 or one short of the surplus 1,008, the largest fraction $\frac{1,008}{2,004}$ is reckoned as unity, and the numbers of papers to be transferred are as follows:—

To D	128 papers.	To F	14 papers.
To E	5 ,,	To G	859 ,,
		Total, being A's surplus ..	1,008 ,,

The particular papers to be transferred to D, E, F and G are those last filed in their respective sub parcels, and, therefore, at the top of the sub-parcels. The papers to be transferred are to be marked so as to indicate the candidates from and to whom the transfer is made.

These papers are added as separate sub-parcels of D, E, F and G.

The totals of the votes credited to these candidates then become:—

	Votes.		Votes.
D	746 + 128 = 874	F	341 + 14 = 355
E	493 + 5 = 498	G	157 + 859 = 1,016

The remainders of the papers in the sub-parcels (*i.e.*, those papers not transferred), together with the papers on which no further available preferences were marked, are collected together and formed into one parcel, representing A's quota of votes (1,001), and these papers are set aside as finally dealt with. The parcel is made up as follows:—

The remainder of D's sub-parcel, 257 less 129 = ...	128
The remainder of E's sub-parcel, 11 less 6 = ...	5
The remainder of F's sub-parcel, 28 less 14 = ...	14
The remainder of G's sub-parcel, 1,703 less 859 = ...	843
Non-transferable papers	8
Total, being A's quota ..	1,001

The operations involved in this transfer are summarized in the following table:—

Transfer of A's surplus.

Surplus											1,008
Number of transferable papers											2,004
Proportion to be transferred $\frac{\text{Surplus}}{\text{Number of transferable papers}}$											$\frac{1,008}{2,004}$

Names of candidates marked as the next available preferences.	Number of original papers	Number of papers transferred.	Number of papers retained for A's quota.
B	..	..	..
C	..	..	..
D	257	129	128
E	11	6	5
F	28	14	14
G	1,703	859	844
H	..	..	..
I	..	..	..
K	..	..	..
Total number of transferable papers ..	2,004	1,008	996
Number of non-transferable papers ..	8	..	8
Total ..	2,012	1,008	1,004

The state of the poll on the conclusion of the transfer is as follows —

	Votes.		Votes.		Votes.		Votes.
A ..	1,001	elected.	C	939	F	355	K 93
G ..	1,016	,,	D	875	H	152	
B ..	982	,,	E	488	I	118	Total .. 6,000

G now has 1,016 votes, a number which is more than the quota. He is accordingly declared elected.

Second transfer.

G's surplus (1,016 less 1,001, or 15) would have to be transferred were it not for the provision of Regulation 47 (5) (a). Under the latter rule, the returning officer need not transfer a surplus which is less than the difference between the two lowest candidates on the poll, and where, therefore, the transfer could not alter the relative position of these two candidates, even if the whole surplus were transferred to the lowest candidate. In this case the difference between I and K, the two lowest candidates, is 25 (118 less 93), and therefore G's surplus need not be transferred.

The returning officer proceeds to distribute the papers of the candidate with the smallest total of votes.

K's parcel of 93 papers is, therefore, examined. It is found to contain 88 papers on which F is the next preference, and 4 on which C is the next preference.

Therefore 89 papers are transferred to F and 4 to C.

The poll now stands as follows:—

	Votes.		Votes.		Votes.
A	1,001	elected.	C	943	F 414
G	1,016	,,	D	875	H 152
B	982	,,	E	490	I 118
					Total .. 6,000

Third transfer.

The poll shows that as a result of the second transfer no further candidate obtained the quota which would entitle him to election, and the next operation has to be determined upon.

The difference between I and H (152 less 118, i.e., 34) exceeds G's surplus (15), which, therefore, is still allowed to remain untransferred [Regulation 47 (5) (a)].

Candidate I is lowest on the poll and his papers have to be distributed in the same manner as K's [Regulation 46 (1)]. But as the combined totals of H and I together with G's surplus (152 + 118 + 15 = 285) are less than 414, the total of F, the next highest candidate, the returning officer avails himself of Regulation 48 (2), and distributes the papers of both H and I in one operation.

The papers (152 + 118, or 270 in all) in the parcels of H and I are examined in one operation, and it is found that—

	Papers.
B is marked next preference on	118
D is marked next preference on	107
Non-transferable papers	44
Total ..	270

It should be stated that on some papers some or one of the candidates A, G, F, H and K may have been marked as next in order of preference on the papers examined, but, as all these candidates are already either elected or excluded, any papers so marked pass to those of the other candidates for whom the next available preferences have been recorded.

The operation is completed by the transfer of 118 papers to B, and 107 to D, whilst the 44 non-transferable papers are set aside as finally dealt with [Regulation 49 (1)].

The poll now stands as follows:—

	Votes.		Votes.		Votes.
A	1,001	elected.	D	988	Non-transferable papers. 44
G	1,016	,,	C	943	
B	1,071	,,	E	490	Total .. 6,000
			F	414	

B now has 1,071 votes, a number which exceeds the quota. He is accordingly declared elected.

Fourth transfer.

B's surplus (70) exceeds the difference (55) between E and F, the two candidates lowest on the poll, and it is, therefore, necessary to distribute it.

For this purpose, only sub-parcel of papers last transferred, containing 118 papers, is taken into account.

These are examined and arranged in sub-parcels (in the same manner as A's papers were examined and arranged) with the following result:—

A next preference is shown for E on 84 papers.

No further preference is shown on 35 papers.

The total number of transferable papers (84) is thus greater than the surplus (70), and the proportion to be transferred is $\frac{70}{84}$. But there is only one candidate, E, entitled to participate in the transfer. E accordingly received the whole of the surplus, and the 73 papers last filed in E's sub-parcel are therefore transferred to him, after being marked so as to indicate their transfer from B to E [Regulation 47 (4) (c)].

The remainder of the papers in E's sub-parcel, together with the non-transferable papers, are placed with B's original parcel. The whole constitutes B's quota, and these papers are set aside as finally dealt with [Regulation 49 (1)].

B's quota is made up as follows:—

Original parcel	.. ..	952
Remainder of E's sub-parcel	.. ..	14

Fort St. George, August 31, 1923 (*G.O. No.* 1999, *L. & M.*)

No. 788.—In certain district and taluk boards persons who are not residing at headquarters have been elected or appointed as Presidents.

2. The question has been raised whether in such cases the headquarters should be temporarily shifted to the place of residence of the President or whether the President should be allowed to draw travelling and halting allowances while at headquarters or at his residence.

3. The Government have uniformly resisted proposals to change the headquarters, as in addition to the difficulty in securing proper accommodation for the office and the records, there would be considerable risk of loss or damage if the records are constantly moved from place to place. Presidents living elsewhere have, however, been allowed to draw halting allowance at their places of residence.

4. The Government have again considered this question and hereby direct, in modification of all previous orders on the subject, that a President who does not reside at the headquarters of the board may draw travelling allowance only for *actual* journeys performed by him and shall not draw halting allowance either at his place of residence or at the headquarters of his board.

5. This order will come into force from the 6th September 1923.

Fort St. George, September 18, 1923.

No. 790.—The views of the Examiner of Local Fund Accounts in his letter No. 11—47—2873, dated 7th August 1923, with which the Government concur are communicated to the President, District Board, Kurnool.

2. Rule 25 of the Travelling Allowance Rules will not apply to members of local boards.

Extract of letter No. 11—47—2873, dated the 7th August 1923, from the Examiner of Local Fund Accounts, Madras, to the Secretary to Government Local Self Government Department.

Presidents, District Boards.—These draw railway fare at the rates admissible to Collectors. As the Madras Travelling Allowance Rules apply *in toto* as regards the other Institutions, rule 30 would obviously apply.

Presidents of Taluk Boards and Vice-Presidents of District Boards.—These draw railway fares at the rates admissible to Government officers drawing pay between Rs. 300 and Rs. 750. Here also Travelling Allowance Rule 30 would obviously apply.

Vice-Presidents of Taluk Boards.—These draw railway fare at the rates admissible to Government Gazetted officers drawing pay between Rs. 250 and Rs. 500. Travelling Allowance Rule 30 would apply in their cases also.

Other members of local boards.—These draw a single second-class fare and in addition a single third-class fare. Therefore the application of Travelling Allowance Rule 30 cannot arise in these cases.

Presidents of Union Boards who may happen to be members of district boards.—These draw actual expenses (G.O. No. 49, L. & M., dated 8th January 1923) and so here also the application of Travelling Allowance Rule 30 cannot arise.

No. 791.—In paragraph 6 of G.O No. 1030, L. & M., dated 20th June 1918, the Government recommended to district boards the use of hite motion double barrel pumps in accordance with the Sanitary Board Type design No. 145 of 1913, for wells in which the lowest hot weather level of the water was more than 20 feet deep from the platform where the people were to stand to draw water. Recent reports on the working of the pumps received from Presidents of District Boards show that out of a total of 58 pumps installed in 11 districts, 44 are working satisfactorily. The Public Health Board which was consulted on the question is of opinion that the pump is not suited for temporary installations but recommends it for protecting wells with permanent installations. Presidents of District Boards are accordingly advised to make use of the pumps only for wells with permanent installations

2. The question of the type of pump to be used for temporary installations is separately under consideration and orders will issue in due course.

Fort St. George, September 10, 1923 (*G.O. No.* 1517, *P.H.*).

No. 792.—The Government approve the proposal of the Director of Public Health that health inspectors should be required to pass an examination in a vernacular other than their mother tongue within two years of their entertainment or before confirmation whichever is earlier. Permanent health inspectors now in service should qualify themselves within a year from the date of this order failing which their increments of pay will be withheld. The Director of Public Health may however for special reasons exempt individuals from undergoing the test.

2. The nature of the test is described in the annexure to this order. The Director of Public Health is requested to arrange with the Board of Examiners for holding the Vernacular examinations.

ANNEXURE.

25. No voter shall be allowed to vote in any other way than is herein specified.

26. Not less than fifteen clear days before the date fixed for the poll the Returning Officer shall issue through the post a declaration paper and a voting paper to each elector to the address entered against his name in the electoral roll, unless the elector has, since the publication of the roll, changed his address and intimated the fact in writing to the Returning Officer.

27. The declaration shall be in Form II and the voting paper in Form VIII. They shall be printed in such language or languages as the Local Government may by an order direct. The same serial number shall be entered on the face of the declaration paper and on the back of the voting paper. To each voter shall be issued the declaration paper and the voting paper whose serial numbers correspond to the number which the voter bears on the electoral roll.

28. Before the ballot papers are issued to an elector the Returning Officer shall—

(a) have the name of the elector entered on the declaration paper ; and

(b) place his initials against the name of the elector concerned in the electoral roll, or the copy of it, used for the purpose of the election.

29. With the ballot papers, the Returning Officer shall send an envelope addressed to himself in Form IV, a smaller envelope with the number of voting paper entered on its face and a letter in Form V. The Returning Officer shall have the number of the ballot paper entered at the left-hand bottom corner of the envelope in Form IV.

30. Each elector upon receipt of his ballot papers, if he desires to vote in the election, shall first sign the declaration in the declaration paper and shall then record his vote on the voting paper.

31. (1) Every elector shall have one transferable vote

(2) An elector in giving his vote—

32. A voting papers shall be invalid on which—

(b) the figure 1 is set opposite the name of more than one candidate ; or

(d) any mark is placed by the voter by which he may afterwards be identified.

33. The elector shall then enclose the voting paper in the smaller envelope and stick it up and enclose the smaller envelope and the declaration paper in the larger envelope and send it by registered post to the Returning Officer so as to reach not later than the day and the hour fixed for the poll in the notification published under Regulation 3. Envelopes received after such day and hour shall be rejected :

Provided that, at his option, the elector may deposit the envelope in a ballot box which shall be provided at the office of the Returning Officer on the day and during the hours fixed for the poll.

34. If an elector is incapacitated from blindness or other physical cause from voting in the manner prescribed above, it shall be competent for him to record his vote by the hand of any of the officers or other persons empowered to attest his declaration ; and such officer or other person shall, on the declaration paper, certify the incapacity and attest the fact of his having been requested by the elector to mark the voting paper for him and of its having been so marked by him in the presence of the elector.

35. An elector who has not received his ballot papers sent by post or whose ballot papers before their despatch back to the Returning Officer have been inadvertently spoilt in such manner that they cannot be conveniently used as ballot papers or who has lost his ballot papers may, on his transmitting to the Returning Officer a declaration to that effect signed by himself, require the Returning Officer to send him new ballot papers in place of those not received, spoilt or lost ; and if the ballot papers have been spoilt, the spoilt ballot papers shall be returned to the Returning Officer who shall cancel them on receipt. In every case when new ballot papers are issued, a mark shall be placed against the number of the elector's name in the roll to denote that new ballot papers have been issued in place of those not received, spoilt or lost.

36. No election shall be invalidated by reason that an elector has not received a voting paper, provided that a voting paper has been issued to him in accordance with these regulations

37. The scrutiny of the ballot papers shall then take place. The envelopes received from voters by the Returning Officer except those rejected under Regulation 33 shall first be arranged serially according to the numbers entered on them, and shall then be opened by the Returning Officer or in his presence. The Returning Officer shall first examine or cause to be examined whether the numbers on the declaration papers and the envelopes containing the voting papers are correct. If the Returning Officer is satisfied on this point and if the declaration and attestation are *prima facie* regular, he shall file the declaration papers and put the envelopes containing the connected voting papers in a separate heap.

38. Where the Returning Officer is not satisfied that the declaration paper is the one sent out by him to the voter concerned or where the declaration or attestation is not in order, he shall endorse the word "rejected" on the back of the declaration paper and keep it with the connected voting paper in a separate bundle.

39. The Returning Officer shall then open the envelopes containing the voting papers, except those rejected under Regulation 38, and shall classify them as "valid" or "invalid".

40. The Returning Officer shall endorse the word "invalid" on every voting paper that he declares invalid and where the rejection order is questioned by any candidate or agent, give brief reasons for his order. Rejected papers shall be kept separate.

41. After the voting papers have first been counted the Returning Officer shall arrange the voting papers (other than invalid papers) in parcels according to the first preferences recorded for each candidate. He shall also ascertain the total number of valid papers.

42. The Returning Officer shall then count the number of papers in each parcel, and credit each candidate with one vote in respect of each valid paper on which a first preference has been recorded for him.

43. The Returning Officer shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota.")

44. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be elected.

45. (1) If the number of votes credited to an elected candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this regulation to the continuing candidates indicated on the voting papers in the parcel of the elected candidate as being next in order of the voters' preferences.

(2) (a) If the votes credited to an elected candidate consist of original votes only, the Returning Officer shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(b) If the votes credited to an elected candidate consist of original and transferred votes or of transferred votes only, the Returning Officer shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers thereon in further sub-parcels according to the next preferences recorded thereon.

(c) In either case the Returning Officer shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the Returning Officer shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (a) If the total number of transferable papers is greater than the surplus the Returning Officer shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. No note shall be made of the fractional parts, if any, of each number so ascertained.

(c) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of these fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored. If two or more fractional parts are of equal magnitude, that fractional part shall be deemed to be the larger which arises from the larger sub-parcel and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(d) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(e) Each paper transferred shall be marked in such a manner as to indicate the candidate for and to whom the transfer is made.

(5) (a) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(b) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate, and the surplus of the candidate credited with the largest number of original votes shall be first dealt with and, if the numbers of the original votes are equal, the Returning Officer shall decide which surplus he will first deal with.

(c) The Returning Officer need not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred is less than the difference between the total of the votes credited to the two continuing candidates lowest on the roll.

46. (1) If at any time no candidate has a surplus (or when under the preceding regulation any existing surplus need not be transferred) and one or more vacancies remain unfilled, the Returning Officer shall exclude from the poll the candidate credited with lowest number of votes and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

The Returning Officer shall make a separate sub-parcel of the non-transferable papers.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the Returning Officer may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding regulation.

(3) If, when a candidate has to be excluded under this regulation, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates, and the candidate with fewest original votes shall be excluded and, where the numbers of the original votes are equal, regard shall be had to the

total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the Returning Officer shall decide by casting lots which shall be excluded.

47. (1) Whenever any transfer is made under any of the preceding regulations such subparcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in Regulation 45 before any other candidate is excluded.

48. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled the continuing candidates shall be elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates together with any surplus not transferred, that candidate shall be elected.

(3) When the last vacancies can be filled under this regulation, no further transfer of votes need be made.

49. The Returning Officer shall then declare the names of the candidates who have been duly elected and shall prepare a return in Form IX.

50. Any candidate or his agent may at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the Returning Officer to re-examine and recount the papers of all or any candidates (not being papers set aside as finally dealt with) and the Returning Officer shall forthwith re-examine and recount the same accordingly. The Returning Officer may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count: Provided that nothing herein shall make it obligatory on the Returning Officer to recount the same votes more than once.

AUDIT ORDER ON THE ACCOUNTS OF THE MADRAS CENTRAL URBAN BANK, LIMITED, FOR THE YEAR ENDING 30*th* JUNE 1923.

The accounts of the Madras Central Urban Bank, Limited, for the co-operative year ending 30th June 1923, as audited by M.R.Ry. G. Narasimham, B.A.L., F.R.A.S., Public Accountant and Auditor, are passed. Statements showing (1) Receipts and Disbursements, (2) Assets and Liabilities, (3) Profit and Loss as approved by the Registrar are appended to this order.

2. Two hundred and fifty-nine shares were taken up by central banks during the year and a sum of Rs. 25,900 was collected as share capital during the year. Under the power vested in the Registrar by by-law 5 of the by-laws of the bank the buying up and extinguishment of 636 preference shares was ordered by the bank but so far, with a view to redeem only 238 shares, transferred Rs. 23,800 from the share capital account to a separate account. The question of buying up the remaining shares is under the consideration of the bank as it involves an amendment to the by-laws modifying the maximum shares that can be allotted to a central bank.

3. The deposits outstanding against the bank at the end of the year amounted to Rs. 75·81 lakhs as against Rs. 63·12 lakhs in the previous year. The bank enjoys an overdraft of Rs. 15 lakhs from the Imperial Bank of India, the net amount due on the last day of the year being only Rs. 1·45 lakhs. But the overdraft was freely used during the year, Rs. 112·79 lakhs having been drawn and Rs. 144·50 lakhs repaid during the year. The loans outstanding against central banks amounted to Rs. 67·79 Lakhs at the end of the year against Rs. 55·46 Lakhs at the end of the previous year. The indebtedness of primary societies was reduced from Rs. 7·56 lakhs at the beginning of the year to Rs. ·81 lakh at the end of the year. Of the latter amount over Rs. 60,000 was due from liquidated societies.

4. The bank earned during the year a divisible profit of Rs. 1,87,318-11-3. One-fourth of the net profits, viz., Rs. 34,337-2-10 should, according to by law 28, be carried to the credit of the reserve fund. The balance at Rs. 1,05,013-8-5 together with the sum of Rs. 12,449-2-4 carried forward last year or Rs. 1,15,454-10-4 is available for distribution in accordance with by law 26. A sum of about Rs. 76,280-13-11 out of the profits of the year will be required for payment as dividend, contribution to building fund, bonus to employees, etc. The balance of Rs. 33,173-12-5 will be available for buying up the preference shares. There was a balance of Rs. 2,410-6-5 to the credit of the preference share redemption fund after setting apart Rs. 33,010 on account of 636 shares referred to in paragraph 2 above. The total available is Rs. 21,584-1-10. Six hundred and ninety shares should now be bought up at the rate of Rs. 30 per share out of this account in addition to the 636 shares already referred to. The shares that should be bought up may now be selected in accordance with by law 5 and the amount paid off as fresh share capital is collected from central banks. The share capital collected from 1st July 1923 may be utilised for this purpose. Any balance left after distribution according to by-law 26 should be added to the reserve fund. The bank is requested to report the exact amount added to the reserve fund out of the profits of the year.

5. The bank may invest the amount due to the reserve fund out of the profits of the year either in Government promissory notes or in the Imperial Bank of India and report the fact to the Registrar.

6. The Registrar congratulates the Board of Management on another year of successful working.

H. M. HOOD,
Acting Registrar of Co-operative Societies.

Madras, 8th September 1923.

AUDIT CERTIFICATE ON THE ACCOUNTS OF THE MADRAS GOVERNMENT SERVANTS' CO-OPERATIVE SOCIETY, LTD., FOR THE YEAR ENDING 30TH JUNE 1923.

The accounts of the Madras Government Servants' Co-operative Society, Limited, No. 930, for the co-operative year ending 30th June 1923, as audited by M.R.Ry. U. L. Venkatacharyah, City Auditor, are passed. Statements of (1) Receipts and Disbursements, (2) Profit and Loss and (3) Assets and Liabilities furnished by the Auditor are appended to this certificate.

Members and share capital.—The number of members and their paid-up share capital fell from 1,528 and Rs. 38,374 at the beginning of the year to 1,511 and Rs. 37,821 at its close.

3. *Borrowings.*—As usual, the society continues to run its transactions entirely on deposits tendered by its members and others, the highest rate paid being 9½ per cent per annum. During the year, the deposits rose from Rs. 34,609-12-0 to Rs. 43,836.

4. *Loans.*—Eight hundred and thirty seven loans amounting to Rs. 1,07,884 were disbursed during the year as against 638 loans amounting to Rs. 88,274 in the previous year. Repayments amounted to Rs. 1,00,928-12-11 as against Rs. 92,015 in the previous year. The net outstanding amount was Rs. 85,007 as against Rs. 77,895 in the previous year. The amount overdue in principal and interest were Rs. 18,517-14-5 and Rs. 1,232-1-5 as against Rs. 15,336 and Rs. 1,305 respectively in the previous year.

5. *Net profits.*—The society earned during the year a net profit of Rs. 2,846-8-9 as against Rs. 2,698-13-10 in the previous year. One-fourth of this amount, namely, Rs. 711-10-2, should be carried to Reserve Fund. The balance is available for distribution as dividend, common good fund subject to the maxima and limitations laid down in by-law 38.

6. *Reserve Fund.*—The sum to the credit of the Reserve Fund according to the audit order of the previous year was Rs. 8,282-14-12. To this was added Rs. 7-0-8, being the undisbursed profits of the previous year. Adding also Rs. 711-10-2 above noted to the credit of the Reserve Fund, it will rise to Rs. 9,001-8-7. Against this the society has an investment of Rs. 8,739-1-1 with the Coimbatore Central Bank with a sum of Rs. 470-1-8 being the interest allowed for the sum already invested with it. The society has to remit the balance of Rs. 262-5-6 towards Reserve Fund.

7. *General.*—During the year the Directors took vigorous steps to clear off the heavy overdues. As many as 77 civil suits and 21 arbitration applications were filed against defaulters. There were 79 court decrees and 21 arbitration applications pending execution and disposal respectively at the close of the year. It is hoped that their disposal will reduce the heavy overdues considerably. Partly owing to the coercion and partly to the starting of smaller societies for separate offices like Secretariat and Registration Departments, the number of members and share capital has fallen a bit. This weeding of bad members and the formation of small societies are proved to be necessary by the fact that all the excess deposits received in the year have been absorbed by the increased demand for loans from the remaining members.

THE INDIGO CROP OF 1923-23—FIRST REPORT.

[On an average of the five years ending 1921–1922 the area under indigo in the Madras Presidency has represented 46·2 per cent of the total area under indigo in British India.]

The area sown with indigo in the Madras Presidency up to the end of August 1923 is estimated at 64,700 acres against 102,800 acres at the corresponding date of last year, a decrease of 37 per cent.

2. The decrease in area is fairly general and is due to the gradual decline in exports during 1922-23, as a result of the increasing competition of synthetic dyes.

The area in Guntur was only one-fourth of that of last year while, in Cuddapah and Nellore, the area declined by 50 per cent.

3. The growth of the crop was affected by the insufficient rainfall from April to date, especially in the Circars and North Arcot and yields below normal are reported.

There is no reliable information as to the percentage of the crop actually manufactured into dye. But if the whole crop were manufactured into dye, the possible yield would be about 700 tons against 1,100 tons estimated at the corresponding date of last year.

4. Figures by districts are appended below :—

CULTIVATION STATEMENT—APRIL TO JUNE 1923.

(On an average of the five years ending 1922-23, the area sown from April to June represents 8 per cent of the cultivation on dry lands and 11 per cent on wet lands.)

There was very little cultivation in the Circars in June 1923. The main sowings in the month related to paddy on the West Coast and to dry crops, especially ragi, in Salem and Coimbatore.

2. *Dry Lands*.—There was a reduction of more than 35 per cent in the area sown *in June 1923*, as compared with the average and the previous year. The decrease was general except in the South and on the West Coast and was due to insufficient hot weather rains. The decrease was greatest in North Arcot, Salem, and Coimbatore.

The area sown *from April to June* 1923 was below the average area and the area in the previous year by about 25 per cent.

3. *Wet Lands*.—Sowings in the Presidency both in June 1923 and from April to June 1923 were only 6 per cent less than the average. The area sown to-date on the West Coast decreased by more than 10 per cent owing to the lateness of the monsoon but this was partly counterbalanced by increases in Chingleput, South Arcot, North Arcot, Madura, and Ramnad where the larger tanks had sufficient supplies of water owing to the plentiful North East monsoon.

4. Figures by districts are given in the statement appended.

APPENDIX.

SECTION II.—Statement showing the extent of cultivation (Government and minor inams only) for and up to the month of June 1923.

[Area in hundreds of acres, i.e., 00 being omitted.]

District and group.	Percentage of the area in Government and minor inams lands to the total area.	Area cultivated in June 1923.				Area cultivated from April to June 1923.
